## **COMMUNITY REINVESTMENT ACT PERFORMANCE EVALUATION**

First Savings Bank of Hegewisch  
Certificate Number: 29809

13220 S Baltimore Ave  
Chicago, Illinois 60633

Federal Deposit Insurance Corporation  
Division of Depositor and Consumer Protection  
Chicago Regional Office

300 South Riverside Plaza, Suite 1700  
Chicago, Illinois 60606

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

## INSTITUTION RATING

**INSTITUTION'S CRA RATING:** This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area (AA), including low- and moderate-income (LMI) neighborhoods, in a manner consistent with its resources and capabilities.

**The Lending Test is rated Satisfactory.**

First Savings Bank of Hegewisch (FSBH) Community Reinvestment Act (CRA) performance under the Lending Test is supported by the following:

- The loan-to-deposit (LTD) ratio is reasonable given the institution's size, financial condition, and AA credit needs.
- The bank made a majority of its home mortgage loans in the AA.
- The geographic distribution of loans reflects poor dispersion throughout the AA.
- The distribution of loans reflects reasonable penetration among borrowers of different income levels.
- The institution did not receive any CRA-related complaints since the previous evaluation; therefore, this factor did not affect the rating.

**The Community Development Test is rated Outstanding.**

The institution demonstrated excellent responsiveness to the community development needs of its AA through community development lending, qualified investments, and community development services, as appropriate. Examiners considered the institution's capacity, and the need and availability of such opportunities for community development in the AA.

## DESCRIPTION OF INSTITUTION

FSBH is a mutual savings bank headquartered in the south side neighborhood of Hegewisch in Chicago, Illinois. The bank does not have a holding company or affiliates. FSBH received a "Satisfactory" rating at its previous FDIC CRA Performance Evaluation dated July 6, 2020 using the Interagency Intermediate Small Institution Examination Procedures.

FSBH operates nine full-service branches in Illinois and five full service branches in northwest Indiana. Six of the 14 offices are located in moderate-income census tracts. The bank did not open or close any branches, and no merger or acquisition activities occurred since the previous evaluation.

FSBH is a residential lender offering home mortgage lending products that include long-term fixed and adjustable rate mortgage loans, home equity loans, single-family construction loans, and multi-family residential loans. The bank also offers consumer installment loans. The bank does not participate in secondary market lending, or offer commercial lending products.

FSBH offers a variety of deposit products including savings, checking, money market accounts, certificates of deposit, and individual retirement accounts. The bank provides alternative delivery channels to serve its customers, including online and mobile banking, ATMs, online mortgage loan applications, and electronic bill payment.

According to the Call Report dated March 31, 2023, FSBH reported \$809.0 million in total assets, \$409.0 million in total loans, \$689.2 million in total deposits, and \$293.3 million in investments. One-to-four family residential mortgage loans represented 98.8 percent of the total loan portfolio, while multi-family loans represented 0.6 percent. Total assets increased 17.7 percent and total loans increased 22.4 percent since the previous CRA evaluation. The following table illustrates the loan portfolio composition.

Loan Portfolio Distribution as of 03/31/2023		
Loan Category	\$ (000s)	%
Construction, Land Development, and Other Land Loans	992	0.2
Secured by Farmland	0	0.0
Secured by 1-4 Family Residential Properties	404,021	98.8
Secured by Multifamily (5 or more) Residential Properties	2,291	0.6
Secured by Nonfarm Nonresidential Properties	996	0.2
<b>Total Real Estate Loans</b>	<b>408,300</b>	<b>99.9</b>
Commercial and Industrial Loans	0	0.0
Agricultural Production and Other Loans to Farmers	0	0.0
Consumer Loans	588	0.1
Obligations of State and Political Subdivisions in the U.S.	0	0.0
Other Loans	5	0.0
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	0	0.0
<b>Total Loans</b>	<b>408,893</b>	<b>100.0</b>

*Source: Reports of Condition and Income*

Examiners did not identify any financial constraints or legal impediments that would preclude FSBH from reasonably meeting the credit or community development needs of the AA.

## DESCRIPTION OF ASSESSMENT AREAS

The CRA requires each financial institution to define one or more AAs within which examiners will evaluate its performance. FSBH has designated an AA located in the Chicago-Naperville-Elgin, IL-IN-WI Metropolitan Statistical Area (Chicago MSA). The AA includes whole geographies and does not arbitrarily exclude low- or moderate-income (LMI) census tracts. The AA is made up of

1,165 census tracts that encompass portions of Cook and Will Counties in Illinois and portions of Lake County, Indiana. Specifically, FSBH has designated the City of Chicago, southern suburban Cook County, and the northeast portion of Will County, all in Illinois; and the western portion of Lake County, Indiana. These counties are located in the Chicago-Naperville-Arlington Heights, Illinois Metropolitan Division (MD) and the Gary, Indiana MD, which fall within the Chicago MSA. The assessment area meets the definition of a multi-state assessment Area as the AA contains branches in at least two states, all of which are in the same defined MSA.

### **Economic and Demographic Data**

Examiners used demographic data from 2015 American Community Survey (ACS), compiled by the U.S. Census Bureau to analyze the bank's CRA Performance. The following table illustrates select demographic characteristics of the AA.

Demographic Information of the Assessment Area						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	1,165	22.4	30.7	23.3	22.6	1.0
Population by Geography	4,396,210	17.5	31.6	25.9	24.6	0.4
Housing Units by Geography	1,854,471	17.4	29.5	25.3	27.3	0.5
Owner-Occupied Units by Geography	902,291	8.6	26.6	32.0	32.5	0.2
Occupied Rental Units by Geography	736,943	24.2	32.5	19.4	23.1	0.8
Vacant Units by Geography	215,237	30.5	31.5	17.8	19.6	0.6
Businesses by Geography	390,500	11.0	22.7	23.9	41.6	0.8
Farms by Geography	4,051	8.7	24.3	28.4	38.4	0.2
Family Distribution by Income Level	977,784	30.3	17.4	17.8	34.5	0.0
Household Distribution by Income Level	1,639,234	31.0	16.0	16.8	36.1	0.0
Median Family Income MSA - 16984 Chicago-Naperville-Evanston, IL	\$75,024	Median Housing Value			\$222,274	
Median Family Income MSA - 23844 Gary, IN	\$64,075	Median Gross Rent			\$1,009	
		Families Below Poverty Level			15.0%	
<i>Source: 2015 ACS and 2021 D&amp;B Data. Due to rounding, totals may not equal 100.0% (*) The NA category consists of geographies that have not been assigned an income classification.</i>						

According to the 2015 ACS data, 22.4 percent of the owner-occupied housing units are in low-income census tracts, and 30.7 percent are in moderate-income census tracts. While 53.1 percent of the AA census tracts are LMI, only 35.2 percent of all owner-occupied units are located in these tracts. This indicates that area financial institutions may face challenges in originating owner-occupied home mortgages in these census tracts.

Approximately 30 percent of the families in the AA are low income, with 15 percent reporting incomes below the poverty level. The income levels of low-income families represent a stark contrast to the high median housing value of \$222,274 in the AA. These figures suggest the difficulties low-income families face in affording homeownership and obtaining traditional mortgage loans. The owner-occupancy demographic coupled with the contrast between median family income levels and median housing values highlight some challenges that home mortgage lenders may face in providing financing to borrowers on the lower end of the income spectrum.

Examiners used the FFIEC-updated median family income levels to analyze home mortgage lending activity under the Borrower Profile criterion. The following table illustrates the income categories for the AA.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
<b>Chicago-Naperville-Evanston, IL Median Family Income (16984)</b>				
2021 (\$87,100)	<\$43,550	\$43,550 to <\$69,680	\$69,680 to <\$104,520	≥\$104,520
<b>Gary, IN Median Family Income (23844)</b>				
2021 (\$75,600)	<\$37,800	\$37,800 to <\$60,480	\$60,480 to <\$90,720	≥\$90,720
<i>Source: FFIEC</i>				

The COVID-19 pandemic considerably affected local and global environments. The stay-at-home orders and temporary closures of non-essential businesses that became effective in March 2020 caused significant hardships for both individuals and businesses. The pandemic triggered dramatic increases in statewide and national unemployment rates, which began improving in 2021. The following table illustrates the unemployment rates during the review period.

Area	Unemployment Rates			
	2020	2021	2022	May 2023
	%	%	%	%
Cook County, IL	10.6	6.9	5.0	3.5
Will County, IL	9.2	5.7	4.6	3.1
Lake County, IN	10.5	6.5	4.6	5.0
Porter County, IN	8.2	4.2	3.3	3.9
Illinois	9.3	6.1	4.6	4.1
Indiana	7.3	3.9	3.0	3.1
National Average	8.1	5.3	3.6	3.7
<i>Source: Bureau of Labor Statistics</i>				

## **Competition**

FSBH faces high competition in the AA. According to the FDIC Deposit Market Share data as of June 30, 2022, 162 financial institutions operated 2,315 full-service offices throughout the Chicago MSA. Of these institutions, FSBH ranked 62<sup>nd</sup> with 0.1 percent of the deposit market share. The four highest-ranked institutions are large national and regional banks that have a combined deposit market share of 54.2 percent.

The bank's AA is a highly competitive market for home mortgage loans. Aggregate HMDA lending data for 2021 (the latest aggregate data available) reflects 195,611 home mortgage originations and purchases by 818 lenders in the AA. FSBH ranked 62<sup>nd</sup>, with a market share of 0.3 percent by number of loans.

## **Community Contacts**

As part of the evaluation process, examiners contact third parties active within the AA to assist in identifying credit needs and opportunities within the AA. This information helps assess whether local financial institutions are responsive to those needs. For this evaluation, examiners utilized a recently conducted community contact with a representative from a financial advocacy organization operating within the bank's AA. The contact identified needs for affordable housing, small dollar consumer and business loans, and more flexible loan products that consider alternative credit history.

## **Credit and Community Development Needs and Opportunities**

Examiners determined that loans supporting affordable housing and small dollar consumer loans represent significant credit needs in the AA based on information from community contacts, bank data, and demographic data. This conclusion is supported by the volume of LMI persons and census tracts, as well as aggregate HMDA data.

# **SCOPE OF EVALUATION**

## **General Information**

The evaluation covers the period from the previous evaluation dated July 6, 2020, to the current evaluation dated July 10, 2023. Examiners used the Interagency Intermediate Small Institution Examination Procedures to evaluate FSBH's CRA performance. These procedures include the Lending Test and the Community Development Test as outlined in the appendix. Financial institutions must achieve a satisfactory rating under each test to obtain an overall satisfactory rating.

## **Activities Reviewed**

Examiners reviewed FSBH's record of originating home mortgage loans as this loan category represents the largest percentage of the bank's lending. No other loan types, such as small business, small farm or consumer loans, represent a significant portion of lending.

Examiners reviewed all home mortgage loans reported as originated or purchased on the bank's 2020, 2021 and 2022 HMDA Loan Application Registers. The bank reported 555 home mortgage loans totaling \$138.7 million in 2020, 640 totaling \$148.2 million in 2021, and 218 totaling \$54.5 million in 2022. Examiners did not identify any trends between 2020 and 2022 that materially affect conclusions. While examiners reviewed and considered the bank's performance in all three years, the data in each year did not lead to different conclusions. Therefore, this evaluation presents information for 2021, the most recent year for which aggregate data is available, which is considered representative of bank performance throughout the review period. The 2015 ACS data and 2021 HMDA aggregate data provided standards of comparison for the bank's home mortgage lending performance. Examiners focused more on the comparison to aggregate HMDA data as it provides a better assessment of demand and represents all loans extended by all lenders in the AA subject to HMDA data reporting requirements. Further, while examiners considered both number and dollar volume of home mortgage loans, discussion of performance is limited to loans by number, as performance by number of loans is a better indicator of the number of borrowers served, and performance by dollar volume led to similar conclusions.

For the Community Development Test, examiners considered community development loans, qualified investments, and community development services since the prior CRA evaluation.

## **CONCLUSIONS ON PERFORMANCE CRITERIA**

### **LENDING TEST**

FSBH demonstrated satisfactory performance under the Lending Test. The reasonable LTD ratio, AA concertation, and borrower profile performance primarily support this conclusion.

#### **Loan-to-Deposit Ratio**

The LTD ratio is reasonable given the institution's size, financial condition, and AA credit needs. The LTD ratio, calculated from Call Report data, averaged 58.6 percent over the past 11 calendar quarters from September 30, 2020, to March 31, 2023. The ratio ranged from a low of 54.1 percent as of September 30, 2020, to a high of 61.4 percent as of September 30, 2022. The ratio generally increased throughout the evaluation period. Examiners evaluated FSBH's LTD ratio by comparing it to four similarly-situated savings institutions (SSIs). Examiners selected these banks based on asset size, geographic location, and lending focus. As shown in the following table, FSBH's average LTD ratio falls within range of the SSIs.

Loan-to-Deposit (LTD) Ratio Comparison		
Bank	Total Assets as of 03/31/2023 (\$000s)	Average Net LTD Ratio (%)
<b>First Savings Bank of Hegewisch</b>	<b>808,975</b>	<b>58.6</b>
Similarly-Situated Institution #1	468,567	48.5
Similarly-Situated Institution #2	426,841	60.9
Similarly-Situated Institution #3	863,805	71.0
Similarly-Situated Institution #4	581,777	63.6
<i>Source: Reports of Condition and Income 09/30/2020 – 03/31/2023</i>		

### Assessment Area Concentration

FSBH originated a majority of home mortgage loans by number and dollar volume within its AA during the evaluation period, as shown in the following table.

Lending Inside and Outside of the Assessment Area												
Loan Category	Number of Loans				Total	Dollar Amount of Loans \$ (000s)				Total		
	Inside		Outside			Inside		Outside				
	#	%	#	%		#	\$	%	\$			
										\$ (000s)		
Home Mortgage												
2020	444	80.0	111	20.0	555	95,672	69.0	43,049	31.0	138,721		
2021	499	78.0	141	22.0	640	98,142	66.2	50,023	33.8	148,165		
2022	175	80.3	43	19.7	218	41,171	75.5	13,334	24.5	54,505		
<b>Total</b>	<b>1118</b>	<b>79.1</b>	<b>295</b>	<b>20.9</b>	<b>1,413</b>	<b>234,985</b>	<b>68.8</b>	<b>106,406</b>	<b>31.2</b>	<b>341,391</b>		
<i>Source: Bank Data. Due to rounding, totals may not equal 100.0%</i>												

### Geographic Distribution

The geographic distribution of home mortgage loans reflects poor dispersion throughout the AA. Performance is measured against aggregate data and the percentage of owner-occupied housing units (demographic data) within each census tract level. The following table illustrates the geographic distribution of home mortgage loans in the AA by census tract income level.

Geographic Distribution of Home Mortgage Loans						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2021	8.6	6.7	8	1.6	1,118	1.1
Moderate						
2021	26.6	21.0	41	8.2	4,945	5.0
Middle						
2021	32.0	29.8	151	30.3	23,848	24.3
Upper						
2021	32.5	42.3	299	59.9	68,231	69.5
Not Available						
2021	0.2	0.2	0	0.0	0	0.0
<b>Totals</b>						
<b>2021</b>	<b>100.0</b>	<b>100.0</b>	<b>499</b>	<b>100.0</b>	<b>98,142</b>	<b>100.0</b>

Source: 2015 ACS; Bank Data, 2021 HMDA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%

FSBH's lending within low-income tracts significantly trailed both the aggregate and demographic data. The bank's lending within moderate-income tracts also significantly trailed aggregate and demographic data.

Some factors may affect the lending performance in LMI tracts. For example, FSBH's branches are located in the southern suburban portion of Cook County and the northwest portion of Lake County, Indiana. The locations of these branches make it difficult for the bank to serve the LMI tracts in the western portion of the City of Chicago. However, FSBH maintains branches within close proximity of several LMI tracts in the southern portions of the City of Chicago. In addition, high median home values and lower owner occupancy levels present challenges in extending conventional home mortgage loans. FSBH does not originate government loans, such as Federal Housing Administration loans that may better service these areas than conventional home mortgage loans. Examiners compared the bank's lending performance to aggregate data for only conventional home mortgage loans; however, the bank's performance still significantly lags behind. Aggregate data revealed 5.4 percent conventional loans in low-income tracts and 18.7 percent in moderate-income census tracts in 2021.

Examiners also reviewed FSBH's community development activities to determine the level that such activities benefited LMI tracts in the AA. During the evaluation period, the bank purchased 10 community development loans to small businesses located in LMI tracts, as well as two mortgage-backed securities collateralized by 17 home mortgage loans in LMI tracts. While these activities benefited LMI tracts in the AA, the level does not fully mitigate the low level of penetration over the evaluation period.

FSBH developed the Resilient Communities Loan Program (RCLP) that has been offered since March 2020. This program benefits specific LMI census tracts that have been highly impacted by foreclosures within the AA. Qualifying applicants receive a discounted interest rate, certain closing costs are paid by the bank at closing, and \$1,000 down payment assistance is provided for purchase transactions. The program has an income cap of \$80,000 in order to qualify. Under the RCLP, FSBH has originated seven loans totaling approximately \$1.0 million during the evaluation period.

The RCLP is responsive to the credit needs of the AA; however, the results have not mitigated the low level of penetration in LMI tracts over the evaluation period. Although there are various factors that affect the bank's performance, the significantly low levels of penetration in LMI areas compared to aggregate and demographic data support the poor assessment.

### **Borrower Profile**

Overall, the distribution of borrowers reflects, given the demographics of the AA, reasonable penetration among individuals of different income levels, including LMI families. Performance is measured against aggregate lending and the percentage of families (demographic) within each income designation. The following table shows the bank's performance.

Distribution of Home Mortgage Loans by Borrower Income Level						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$ (000s)	%
Low						
2021	30.3	6.2	22	4.4	2,066	2.1
Moderate						
2021	17.4	16.0	62	12.4	7,534	7.7
Middle						
2021	17.8	21.1	149	29.9	24,571	25.0
Upper						
2021	34.5	38.5	260	52.1	63,252	64.5

2021	0.0	18.2	6	1.2	719	0.7
<b>Totals</b>						
<b>2021</b>	<b>100.0</b>	<b>100.0</b>	<b>499</b>	<b>100.0</b>	<b>98,142</b>	<b>100.0</b>

Source: 2015 ACS; Bank Data, 2021 HMDA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%

FSBH's lending to low-income borrowers is below the demographic and trails aggregate performance. However, FSBH's AA is a highly competitive market for loans. The bank faces challenges in competing with the products and services offered by larger financial institutions. Performance is also affected by the percentage of low-income families whose incomes fall below the poverty level and high median home values in the AA. Specifically, 15 percent of low-income

families generate incomes below the poverty level, and as such, likely to face difficulties in qualifying for traditional mortgage loans offered by the bank. In addition, the large gap between the low median family income levels and high median values in the AA presents further challenges. The fact that aggregate performance is also well below the demographic for low-income families supports the assessment that lenders face certain challenges when serving this market.

The bank's lending to moderate-income borrowers also trailed both the demographic and aggregate data. However, as stated previously, FSBH faces challenges in competing with the products and services offered by the larger financial institutions in this highly competitive AA.

In concluding that the bank's home mortgage lending performance was reasonable overall, examiners also considered the bank's specialized lending programs that facilitate both home mortgage and consumer loans for LMI borrowers. These programs include:

- No application cost program – offered to LMI borrowers in the AA based on demographic information. This program allows LMI borrowers within the AA to determine their credit eligibility without the risk of using funds if the loan is not approved. If an application is denied, the fees are paid by the bank. Closing costs for approved applications are not collected until the time of closing and can be rolled up into the cost of the loan. During the evaluation period, the bank closed 72 loans totaling \$8.0 million under this program.
- First time homebuyers program – this program offers a discounted interest rate for owner-occupied purchase transactions for first time homebuyers within the AA. The program has an income cap of \$80,000 in order to qualify. Per census data, LMI individuals have incomes lower than \$69,680. Qualifying applicants receive a discounted interest rate and certain closing costs are paid by the bank. The bank has originated 25 loans totaling \$4.4 million under this program during the evaluation period.
- Deposit-secured loan program – this is an alternative to high-cost and risky payday lending programs. FSBH has originated six loans under this small dollar loan program totaling approximately \$9,800 during the evaluation period. The original balances of these transactions ranged from \$800 - \$2500. Loan status and repayment is reported to credit bureaus allowing the customer to build a credit history.

As previously mentioned, a recent community contact identified affordable housing, small dollar consumer loans, and more flexible loan products that consider alternative credit history as needs in the AA. The availability of these loan products demonstrates FSBH's willingness and responsiveness to meet credit needs of the community. This is further supported through FSBH's purchase of mortgage-back securities during the evaluation period that were collateralized by 17 loans to LMI borrowers in the AA. Overall, the bank's performance is reasonable.

#### Response to Complaints

The bank did not receive any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the rating.

## **COMMUNITY DEVELOPMENT TEST**

FSBH's community development performance demonstrates excellent responsiveness to the community development needs in its AA through community development loans, qualified investments, and community development services. FSBH's significant level of qualified investments and community development services supports this conclusion. Examiners considered the institution's business focus, capacity, and the need and availability of such opportunities for community development activities in the AA. FSBH's performance was compared to four SSIs that operate in the same regional area.

### **Community Development Loans**

FSBH purchased 11 community development loans total approximately \$3.8 million within the AA that supported an estimated 137 jobs. All community development loans were obtained through investments in the Solomon Hess SBA Loan Fund, LLC (Fund). The Fund is a certified Community Development Financial Institution (CDFI) fund that provides community development loans, which support economic development and meet the SBA 7(a) program standards. The SBA works with lenders to provide loans targeted to small businesses and start-ups for the purpose of purchasing buildings or land, providing working capital, and purchasing inventory. Ten of 11 loans are located in LMI census tracts.

The level of community development lending represents approximately 1.0 percent of average total loans.. Historically, the bank's community development lending has been relatively low. FSBH is a first-lien conventional owner-occupied residential lender and does not have experience in commercial lending. Therefore, the bank has chosen to focus on other community development initiatives. FSBH's community development lending volume is lower than four SSIs operating in the same AA. The following table illustrates the bank's community development lending by year.

Activity Year	Community Development Lending									
	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)	#	\$(000s)

Source: Bank Data

### **Qualified Investments**

FSBH made 156 qualified investments, grants, and donations totaling approximately \$32.4 million during the evaluation period. This includes 17 prior period investment balances totaling approximately \$18.7 million, 49 new investments totaling approximately \$14.7 million, and 90 donations to community development organizations totaling \$60 thousand. A majority of the

bank's qualified investments supported affordable housing within the AA, which was indicated as a primary community development need by a community contact. The level of community development investments represents approximately 28.6 percent of average equity capital and 14.0 percent of average securities. FSBH's performance significantly exceeded the performance of four SSIs. The SSIs performance averaged approximately \$6.3 million in community development investments that had a range of 2.1 to 4.1 percent of average total securities and 4.2 to 7.1 percent of capital. The following table illustrates the bank's community development investment activity by year and purpose.

Qualified Investments										
Activity Year	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals	
	#	\$ (000s)	#	\$ (000s)	#	\$ (000s)	#	\$ (000s)	#	\$ (000s)

*Source: Bank Data*

Notable examples of FSBH's qualified investments include:

- Thirteen mortgage-backed securities from the prior review period with a current book value of \$11.9 million. The bank purchased two additional mortgage-backed securities within the evaluation period totaling \$3.1 million. These investments support affordable housing, because the collateral is comprised solely of mortgage loans to LMI borrowers in the AA.
- Prior to the review period, FSBH committed \$3.5 million to a Community Development Financial Institution's multi-family, affordable housing program. Of this, approximately \$918,500 was funded during the evaluation period. Through the program, the organization acquires, rehabs, and preserves affordable rental units targeted to LMI individuals and neighborhoods.
- Purchased or renewed 42 certificates of deposit totaling \$6.75 million at eight CDFIs that support revitalization and stabilization throughout the assessment area.

### **Community Development Services**

During the evaluation period, bank employees provided 66 instances of financial expertise or technical expertise assistance to various organizations providing community development services in the AA. The services involve reoccurring activities with bank employees serving on the board or finance committee of nine qualified organizations. Further, staff members have provided several

financial literacy and homebuyer education seminars targeted to LMI individuals. This level of community development services exceeds that of the four SSIs, with a range of 9 to 55 activities by number. The following table details the community development services by year and type.

Community Development Services

<b>Total</b>	<b>24</b>	<b>37</b>	<b>2</b>	<b>3</b>	<b>66</b>

*Source: Bank Data*

Notable examples of FSBH's community development services include:

- A bank officer serves on the loan committee of a CDFI that provides affordable housing in the AA.
- A bank officer serves on the finance committee of a Housing and Urban Development Counseling agency in the AA. This organization supports revitalization and stabilization in the AA.
- The bank worked with various organizations to deliver eleven financial literacy classes to three predominantly LMI schools in the AA. Bank employees also delivered four financial literacy classes to LMI adults through community development organizations in the AA.
- Bank employees provided sixteen homebuyer education classes to primarily LMI individuals through community development organizations in the AA.

FSBH operates six branch offices in moderate-income geographies. Further, three additional branches are located within 3 miles from clusters of LMI tracts. The proximity of the offices to these areas increases the availability of banking services to LMI individuals residing there.

Additionally, the bank offers several retail services that have enhanced their ability to meet the needs of LMI individuals. These services are summarized below:

- FSBH offers a Loan Workout Program to allow borrowers facing foreclosure the ability to stay in their homes and gradually bring the loan current over an extended period. During the evaluation period, five loans participated in this program.
- The bank participates in the Illinois and Indiana's Hardest Hit Programs, which provide foreclosure prevention assistance for struggling individuals until they are able to regain financial stability. During the evaluation period, four loans were originated under this program.

- The bank participates in Directo a Mexico Program operated by the Federal Reserve. This program allows for a low transfer fee and a more favorable exchange rate, regardless of the amount transferred. This program helps increase access to financial services for LMI individuals.

## **DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW**

Examiners did not identify any evidence of discriminatory or other illegal credit practices; therefore, this consideration did not affect the institution's CRA rating.

## **APPENDICES**

### **INTERMEDIATE SMALL BANK PERFORMANCE CRITERIA**

#### **Lending Test**

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

#### **Community Development Test**

The Community Development Test considers the following criteria:

- 1) The number and amount of community development loans;
- 2) The number and amount of qualified investments;
- 3) The extent to which the bank provides community development services; and
- 4) The bank's responsiveness through such activities to community development lending, investment, and service needs.

## GLOSSARY

**Aggregate Lending:** The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**American Community Survey (ACS):** A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

**Area Median Income:** The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

**Assessment Area:** A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

**Census Tract:** A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

**Combined Statistical Area (CSA):** A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

**Community Development:** For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

**Community Development Corporation (CDC):** A CDC allows banks and holding companies to make equity type of investments in community development projects. Institution CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Institution CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

**Community Development Financial Institutions (CDFIs):** CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

**Community Development Loan:** A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose institution:
  - (i) Has not been reported or collected by the institution or an affiliate for consideration in the institution's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
  - (ii) Benefits the institution's assessment area(s) or a broader statewide or regional area including the institution's assessment area(s).

**Community Development Service:** A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the institution's retail banking services under § 345.24(d).

**Consumer Loan(s):** A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

**Core Based Statistical Area (CBSA):** The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

**Distressed Middle-Income Nonmetropolitan Geographies:** A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

**Family:** Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

**FFIEC-Estimated Income Data:** The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

**Full-Scope Review:** A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

**Geography:** A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

**Home Mortgage Disclosure Act (HMDA):** The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

**Home Mortgage Loans:** Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

**Housing Unit:** Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

**Limited-Scope Review:** A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g., geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

**Low-Income:** Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

**Low Income Housing Tax Credit:** The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

**Market Share:** The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

**Median Income:** The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

**Metropolitan Division (MD):** A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

**Metropolitan Statistical Area (MSA):** CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

**Middle-Income:** Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

**Moderate-Income:** Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

**Multi-family:** Refers to a residential structure that contains five or more units.

**Nonmetropolitan Area** (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

**Owner-Occupied Units:** Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

**Qualified Investment:** A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

**Rated Area:** A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

**Rural Area:** Territories, populations, and housing units that are not classified as urban.

**Small Business Investment Company (SBIC):** SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

**Small Business Loan:** A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

**Small Farm Loan:** A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

**Underserved Middle-Income Nonmetropolitan Geographies:** A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

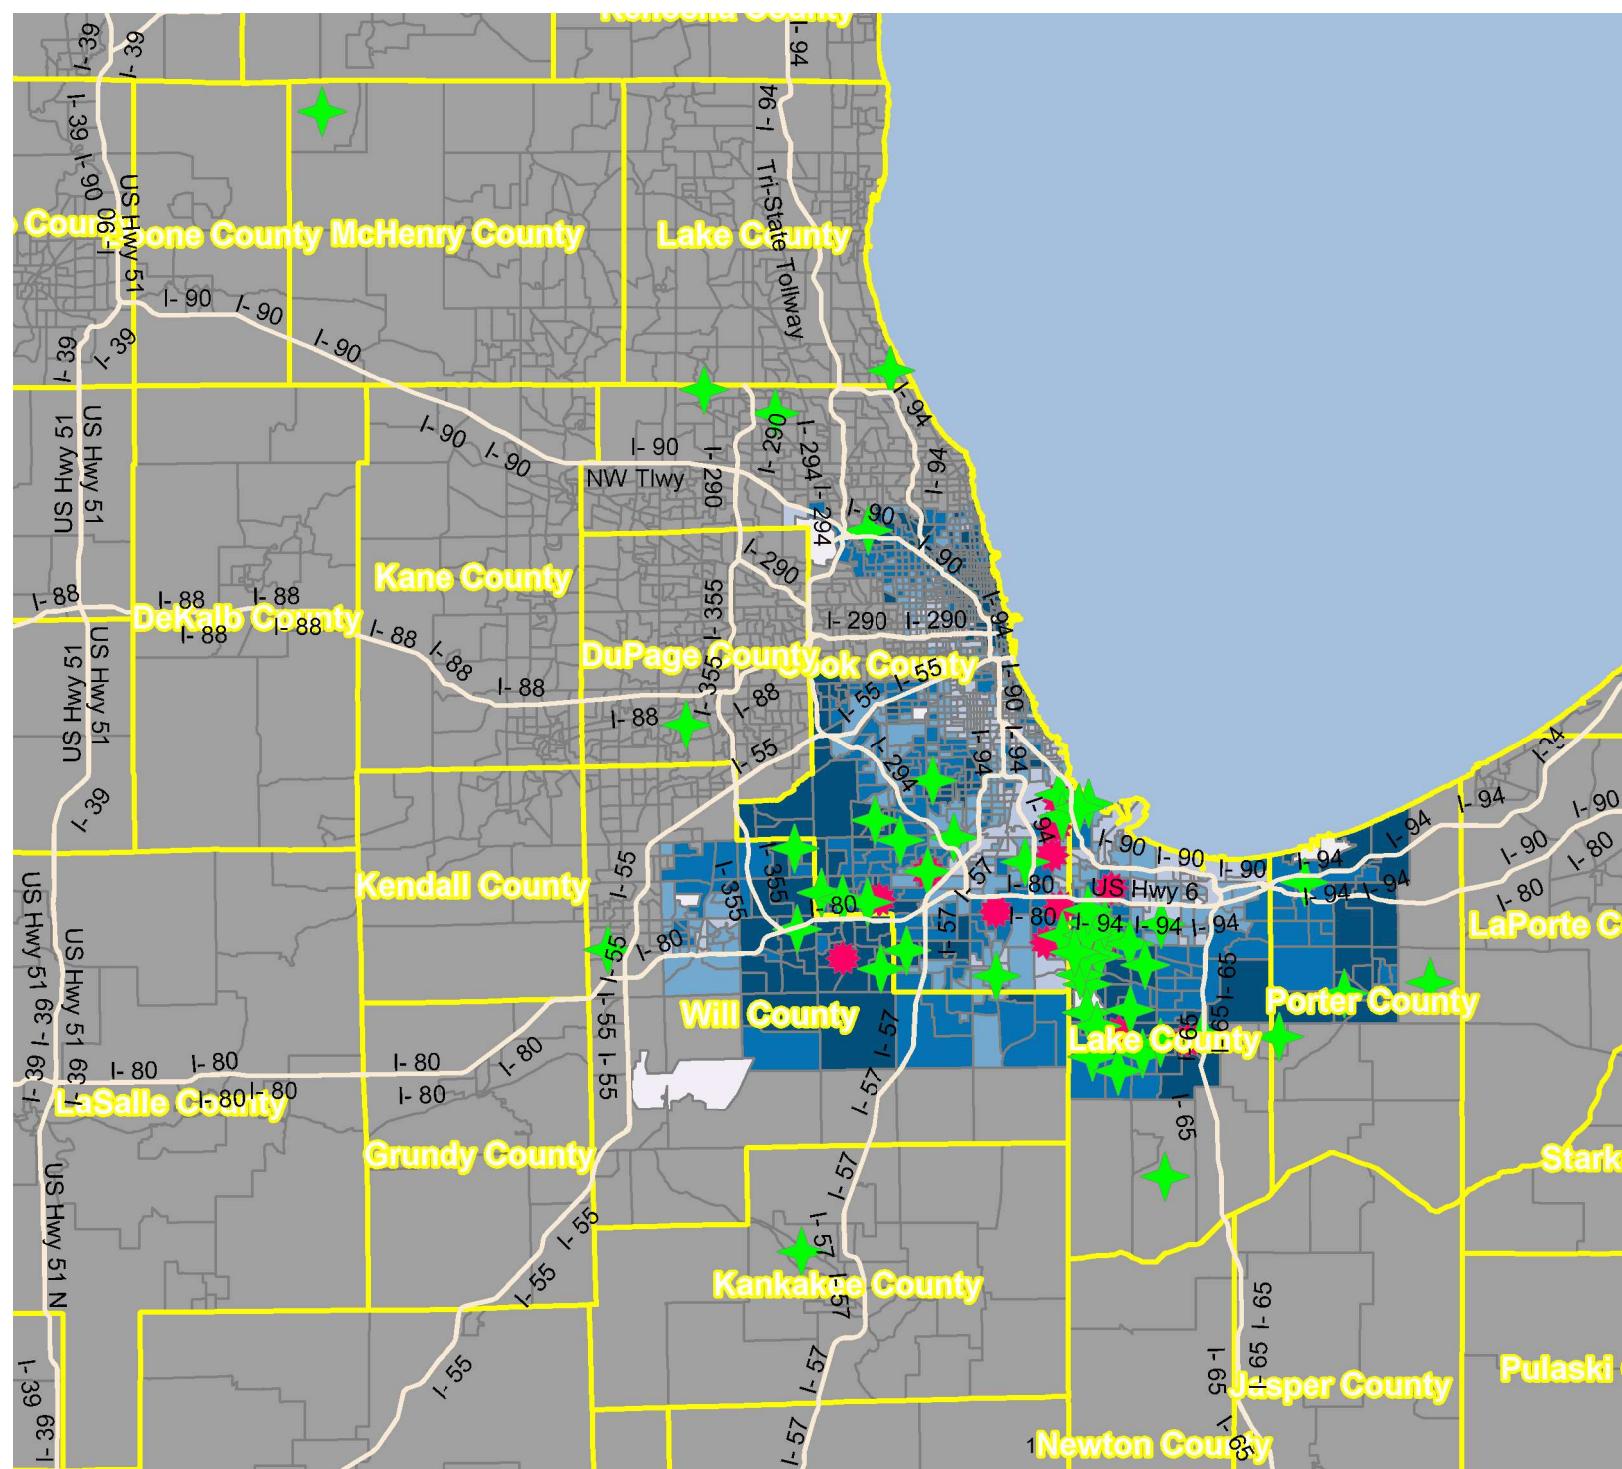

**Upper-Income:** Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

**Urban Area:** All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

Data as of December 31, 2023

CRA Public File

The HMDA data about our residential mortgage lending are available online for review. The data shows geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials. These data are available online at the Consumer Financial Protection Bureau's website ([www.consumerfinance.gov/hmda](http://www.consumerfinance.gov/hmda)).

*HMDA for many other financial institutions are also available at this website.*

## STATE OF ILLINOIS COMMUNITY REINVESTMENT NOTICE

The Department of Financial and Professional Regulation (Department) evaluates our performance in meeting the financial services needs of this community, including the needs of low-income to moderate-income households. The Department takes this evaluation into account when deciding on certain applications submitted by us for approval by the Department. Your involvement is encouraged. You may obtain a copy of our evaluation. You may also submit signed, written comments about our performance in meeting community financial services needs to the Department.
